Existing provider / system age	Previous records / footage available
	Select...
VMS / recorder compatibility and support	Account / licence custody arranged
	Select...
Takeover condition, missing records, inaccessible assets and limits of verification	
Upgrade or corrective work: quoted scope, actual work, retained equipment and regression tests	
Final system state	Outstanding action owner / due date
Select...	

TRAINING AND DOCUMENTS

☐ As-fitted record	☐ Camera / drawing schedule	☐ User instructions
☐ Export procedure	☐ Maintenance details	☐ Certificate recorded separately
Training status	Training date / attendance record	
Select...		
Topics demonstrated: live view, playback, export, faults, privacy, secure access and support		

CCTV COMPLETION AND HANDOVER

NCP 104 Issue 3 | one standalone record for installation, takeover, upgrade and maintenance

CC01 | Pacific template revision 01 | 16 September 2026

COMPLETION AND HANDOVER

This standalone record covers the stated scope and event. The customer acknowledgement covers receipt, demonstration, operating information and the stated system condition; it does not certify technical measurements or override a failed test.

Handover reference / revision	Handover date / time
System status at handover	Monitoring / recording status
Select...	Select...
Documents, access arrangements and export instructions handed over; changes, restrictions, privacy decisions, disconnections and incomplete work. Do not enter passwords in this record.	

SIGN-OFF

Engineer: I confirm that the recorded work and test results reflect the stated scope. Any limitations, failures or departures are recorded above.

Engineer name	Date / time
Engineer signature / signed record reference	Technical reviewer / date

Customer acknowledgement: I confirm receipt of the stated handover information and demonstration for this event. The customer does not certify the engineer's technical measurements or waive an unresolved failure.

Customer name / authorised role	Customer signature / date

Complete this additional acceptance only when a specific change, restriction, disconnection or incomplete item requires customer agreement.

Specific change or limitation accepted	Customer acceptance signature / date

Use with the controlled NCP 104 Issue 3 procedure and any applicable BS 8418:2021 route. This company form is not an NSI certificate.
